Vision and Mission

VISION

We want to be a Company that expresses, through our people, values of innovation distinguished by the ability to integrate chemistry and industrial effectiveness.

We aim to do so by continuously comparing our research and the market to find a wide range of satisfactory solutions to ever-changing complex problems, in coherence with the requirements of sustainable development.

MISSION

We want to be renowned as a global leader in the field of certain chemical specialities used in high potential industrial sectors, to facilitate their production processes or improve their finished products.

In doing so, we want to establish partnerships with the most important customers in the market and, where possible or appropriate, also with our suppliers.

We strive to combine the domain of the technologies we practise with the correct level of service aiming to satisfy the interests of the shareholders, staff, customers and suppliers also by setting up stable organisations in the various geographical areas of interest, with full respect for the environment and the local communities.
